

GIP: Great Opportunity from DOLE

By: Leziel Jane M. Villavelez

Government Internship Program (GIP) is a supplementary program of the government particularly of the Department of Labor and Employment (DOLE) which primary objective is to assist and help the unemployed graduates to experience employment and to earn money.

The Municipality of Braulio E. Dujali is one of the agencies engrossed this kind of program through the Public Employment Service Office (PESO). This year, a considerable number of fresh and unemployed

graduates from (5) barangays of Dujali partake qualified for the program.

Ito ay isangmagandangoportunidadpotalagasaamin". Ms. Villavelez said, one of the GIP grantees.

The grantees were under job contract for three (3) months with the assigned guarantor or agency. It is an opportunity for them to be trained and to have an actual experience and to discover more things relative to employment industry.

SPES and GIP Grantees go on Leadership Training and Team building Activity

By: Jesaly A. Moises

May 26-27, 2015 marked as one of the most memorable days for the Special Program for Employment of Students (SPES) grantees and Government Internship Program (GIP) grantees as they accomplished their first ever Summer Youth Leadership Training and Team building activity held at DapogsaDujali and Tagum City Energy Park, Tagum City, Davao del Norte.

Mr. Abel T. Pagatpat, Public Employment and Service Officer (PESO) together with his staff conducted the said activity to promote camaraderie, self-awareness and to know the different characteristics of the grantees. This activity was supported by the Department of Labor and

Employment (DOLE) - Davao Del Norte, with the cooperation of the Local Government Unit of Braulio E. Dujali lead by Mayor Lolita A. Moral.

The two (2) day event was composed of different lectures and activity on how to develop the participants themselves in leading a group or a community, highlighting more about Leadership and to enhance in communicating others. These different activities like: dragon tails were enjoyed by the grantees.

"It's so awesome! It's not my first time to participate a team building activity but it really boosts my confidence not just an ordinary youth but as a leader," said Joemark "Jhong" Paniligan, GIP President.

According to Mayor Moral on her message, this kind of activity is just a preparation for the battles that they will be going to face as a leader of tomorrow and for them to be prepared in every obstacle that will come in their lives from this present till to the near future.

Zumba: landed at Braulio E. Dujali
By: Moises, Jesaly A.

Mayor Lolita A. Moral is consistent on her advocacy on health and wellness program that she personally shouldered the honorarium of the Zumba Instructor every Friday afternoon from 2:00 to 4:00 o'clock at the ground floor lobby of the municipal hall, this municipality.

ZUMBA exercise is a Latin inspired dance fitness class that usually lasts between 60-90 minutes. Typically instructors start with a very short warm up (after calling out all of the "newbies" to the class) and then go straight into the dance portion where you will be expected to burn calories shaking your thighs to the tune of a blend of Salsa and hip hop music. It is the ultimate fat burning activity that will have you sweating within minutes. These are the reasons why should we need to join the moves: get us healthy skin, boost immunity, flexibility, endorphins, decrease stress, faster reflexes, tone our body, increase metabolism, it's addictive, it goes by quickly, it's social, it's really have fun and amazing result.

This activity suits for the employees and the officials of the municipality who do not have enough time for physical exercise because of the stressful work from Mondays to Fridays, at least once in a week they can burn excess fats and at the same time they will enjoy and have fun.

TREE PLANTING: The environment month celebration

By: Leziel M. Villavelez

Climate change and global warming arecommonly topicsin most of the conventions if not all of the assemblies gathered nowadays. Environmental protection and preservation is everybody's concern. We don't know when the tragedy or disaster comes. We need to be aware and do something that can contribute in mitigating the effect of disaster.

The Local Government Unit of Braulio E. Dujaliwith a strong partnership with Congressman Antonio F. Lagdameo, Jr. of the Second District – Davao del Norte, spearheaded by the Public

Employment and Service Office (PESO) of this municipality together with the helping hands of the Government Internship Program (GIP) and the Youth Ask, conducted the tree planting activity at exactly 5:30 in the morning on June 30, 2015, held along Tuganay River bank, Tanglaw, Braulio E. Dujali headed by Mayor Lolita A. Moral, together and Engr. Dante Baustista from the Congressional Office, representing Congressman Lagdameo, Abel T. Pagatpat, PESO Manager, Edgar L. Taladhay, MENRO, Hon. Eduardo M. Zapata, Barangay Captain of Tanglaw, Kenneth Infiesto, GIP and Youth Ask Coordinator.

Around 100 malibago cuttings were planted in the areas of Tuganay protection dike and at the municipal slaughterhouse of this municipality. Tree planting is one of the alternatives to be able to preclude disaster. A tree absorb 25 pounds of carbon dioxide that helps to maintain the balance of ecology. It's been a pride and honor to be part of tree growing program in the Municipality of Braulio E. Dujali with a slogan, *"KABATAAN PARA SA KALIKASAN AT KALIKASAN PARA SA KABATAAN"*
